

For fresher breath in cats and dogs

Ask your vet about other products to help your pet's bad breath

# Get Closer...

**Bad breath in your pet can be prevented by a few simple measures.**

Your vet can advise you on the best dental health programme for you and your pet.

A healthy mouth helps prevent bad breath, allows your pet to eat comfortably and aids the general well-being of your pet.

### Virbac Pet Oral Hygiene System

offers a complete range of toothpastes, toothbrushes, chews, rinses and gels for a comprehensive pet oral hygiene programme.

# Freshen them up with Vet Aquadent!

# try Vet Aquadent!™

**Drinking Water Additive** to freshen your pet's breath.

Part of the **Pet Oral Hygiene System** range for dogs and cats.

Specially developed by vets, **Vet Aquadent™** is a refreshing and palatable solution that is added to your pet's drinking water.

It offers an easy and convenient way to help fight your pet's bad breath and dental plaque.

**Vet Aquadent™** contains xylitol, which limits build up of dental plaque and tartar. Together they help to fight your pet's bad breath.

Simply add to your pet's drinking water following our easy guide on the right.

For best results **Vet Aquadent™** should be used everyday, as part of your pet's oral hygiene programme. It will help keep their teeth and breath smelling sweet so you can get even closer to your pet!

**Ask your veterinary practice for more advice on other oral hygiene products available.**

## How to use Vet Aquadent™

**Vet Aquadent™** is really easy to give to your dog or cat.

To make it part of your pet's dental hygiene regime, simply follow the 3 steps below and you can look forward to getting much closer to your pet!

### step 1...

Measure 6ml\* of **Vet Aquadent™** ...

### step 2...

...add to 250ml of water

### step 3...

...your pet will enjoy a refreshing drink and fresh breath!

Replace drinking water every 24 hours, even if not finished, using fresh diluted solution.

\* 6ml = approximately 1 teaspoon, 1 capful of the 250ml bottle cap or 1/2 capful of the 500ml bottle cap
